Great Cinema – Successful Premiere of New Business Processes with SAP S/4HANA

itelligence NTT DATA Business Solutions

II The constant transformation in IT also drives a traditional company like ARRI to go along with digitalization. Together with itelligence, we have opened a new chapter in IT with the introduction of SAP S/4HANA, so that we can keep pace with the market.

Dr. Marco Battocletti, Head of IT, ARRI Group

...g their ...ion SAP S/4HANA ...panies prefer the brownfield ... conversion like a classic upgrade while ...aining the usual business processes without major adjustments. The predominantly technically driven conversion requires explicit know-how and ...

World Premiere – SAP S/4HANA in Action

ARRI has already done preparatory work and independently migrated to the SAP HANA database. In doing so, the basis for the conversion has been created. The database migration was to be carried out parallel to ongoing operations without actively affecting daily business – the short downtime required was successfully implemented previous project. As the previously used revenue function for sales and distribution (SD) in SAP HANA was no longer available, the system was migrated to SAP Revenue Accounting and Reporting pre-project. The subsequent complex migration took place in 4 stages: Proof of concept, quality assurance and production. In the course of the project a total of over 100 developments were integrated into the system and additionally 30 company controlling areas were transferred.

Camera on – For an Exciting Future

In close cooperation between itelligence consultants from Germany and the Conversion Factory from India, SAP S/4HANA not only streamlined processes, it also accelerated data analysis and modernized SAP applications. Compared to the previous version, the new solution is more user-friendly and can be adapted more flexibly. In addition, ...

The background of the slide features a dynamic, abstract composition of red and blue ink splashes. The red ink is concentrated on the left side, while the blue ink flows from the right towards the center, creating a sense of movement and blending. The colors are vibrant and the textures are fluid, resembling smoke or liquid in motion.
