

xSuite
It's simple. It's digital.

SAPSA Impuls
Autumn 2021

Ørsted

A stylized white wind turbine is positioned on the left side of the slide. A large, light blue circle is placed over the top-left part of the turbine, containing the word 'AGENDA' in white, bold, uppercase letters. A dotted white line forms a semi-circle around the turbine's hub.

AGENDA

David Victor Hedlund - Welcome

1

Heidi Engelbrecht - Senior Process Specialist & Product Owner in Ørsted – About Ørsted Business Processes

2

Heidi Engelbrecht & Bo Bærentsen – How xSuite solution integrate with Ørsted core business

Q & A

We
discover your
digital behaviour

We
enable **digital**
transparency and
reduce **business**
complexicity

That's WHY we're dedicated to be...

Trusted advisors

enabling digital transparency
and reducing complexity
– in the heart
of your business

Experts in process
optimisation and
document handling

Digital nerds

in identifying company
pain-points and determine
the right actions

HOW do we do that?...

Ørsted

Our vision

Let's create a
world that
runs entirely on
green energy

Ørsted develops energy systems that are green, independent and economically viable

Offshore wind

Onshore renewables

Bioenergy & other

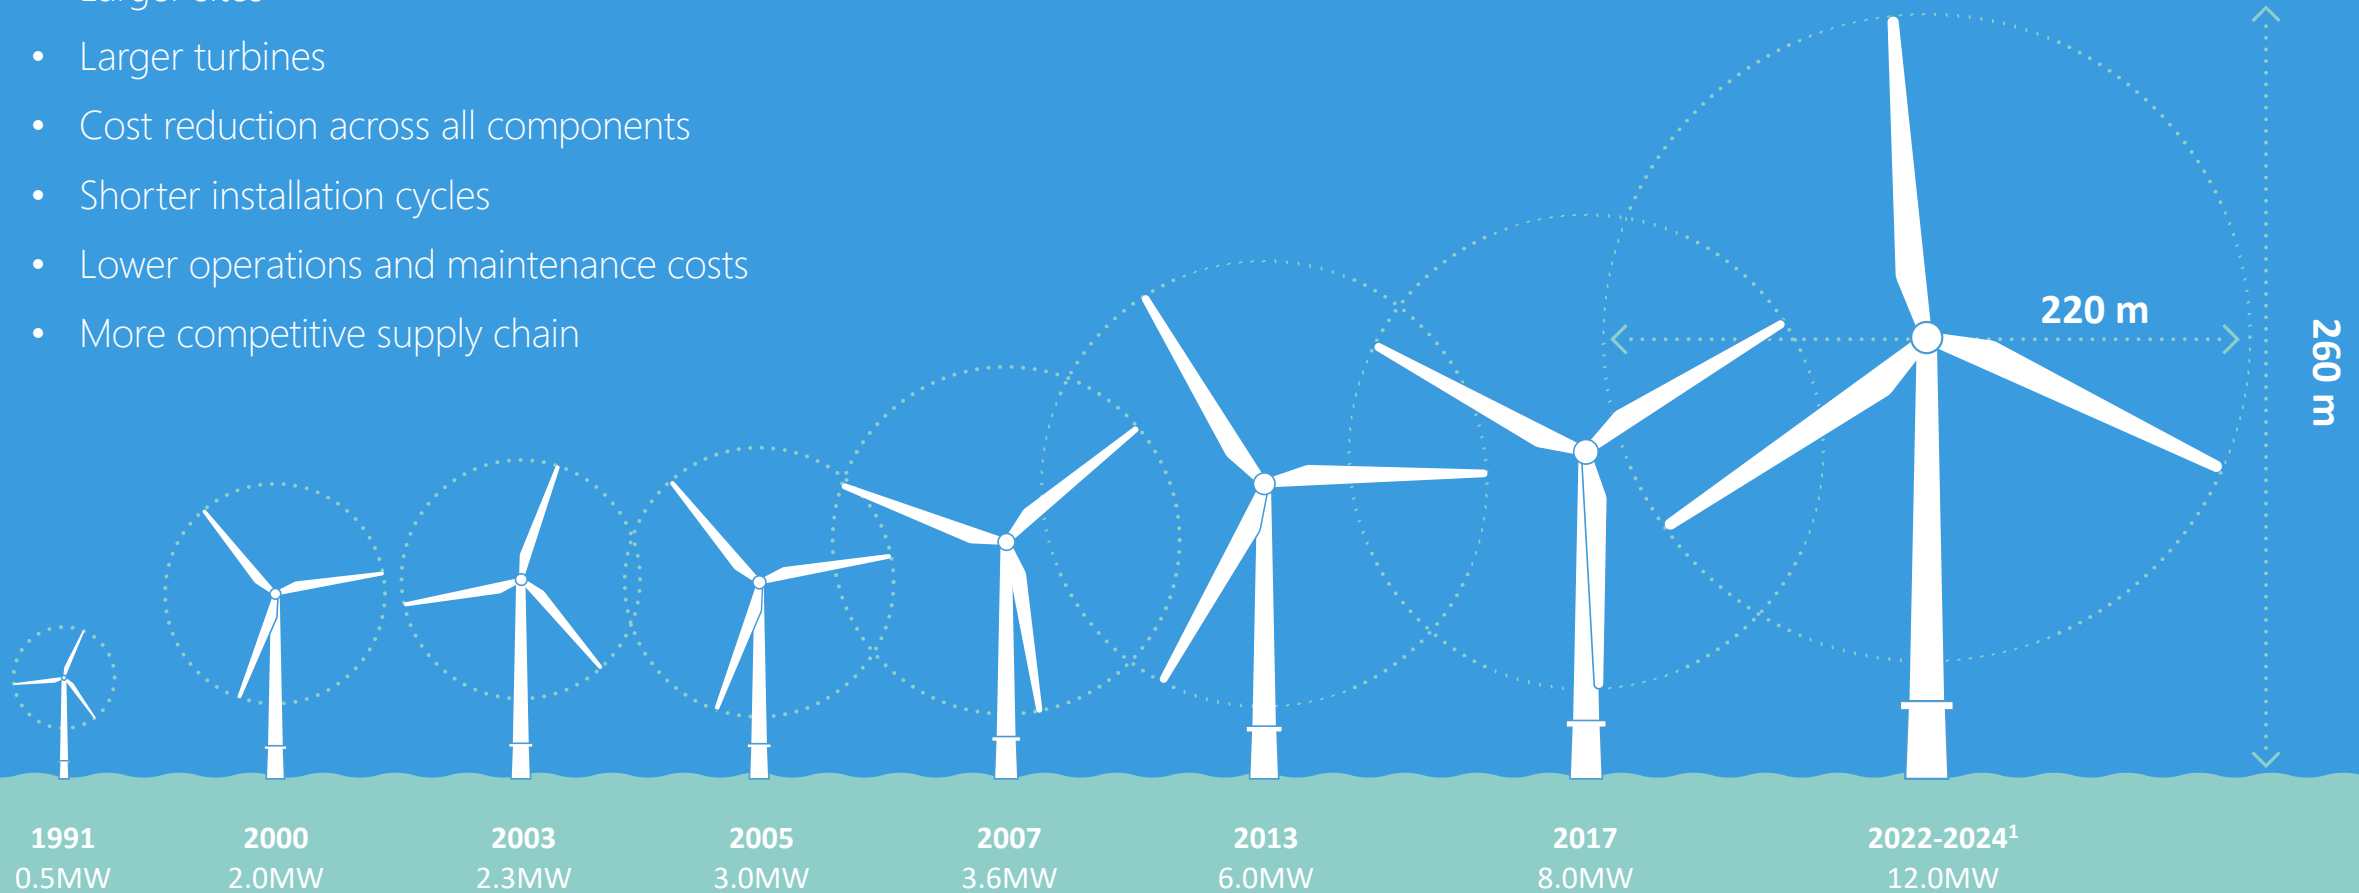

Renewable hydrogen and green fuels

Over the past decade, scale and continuous innovation have driven down the cost of offshore wind

Key cost reduction levers

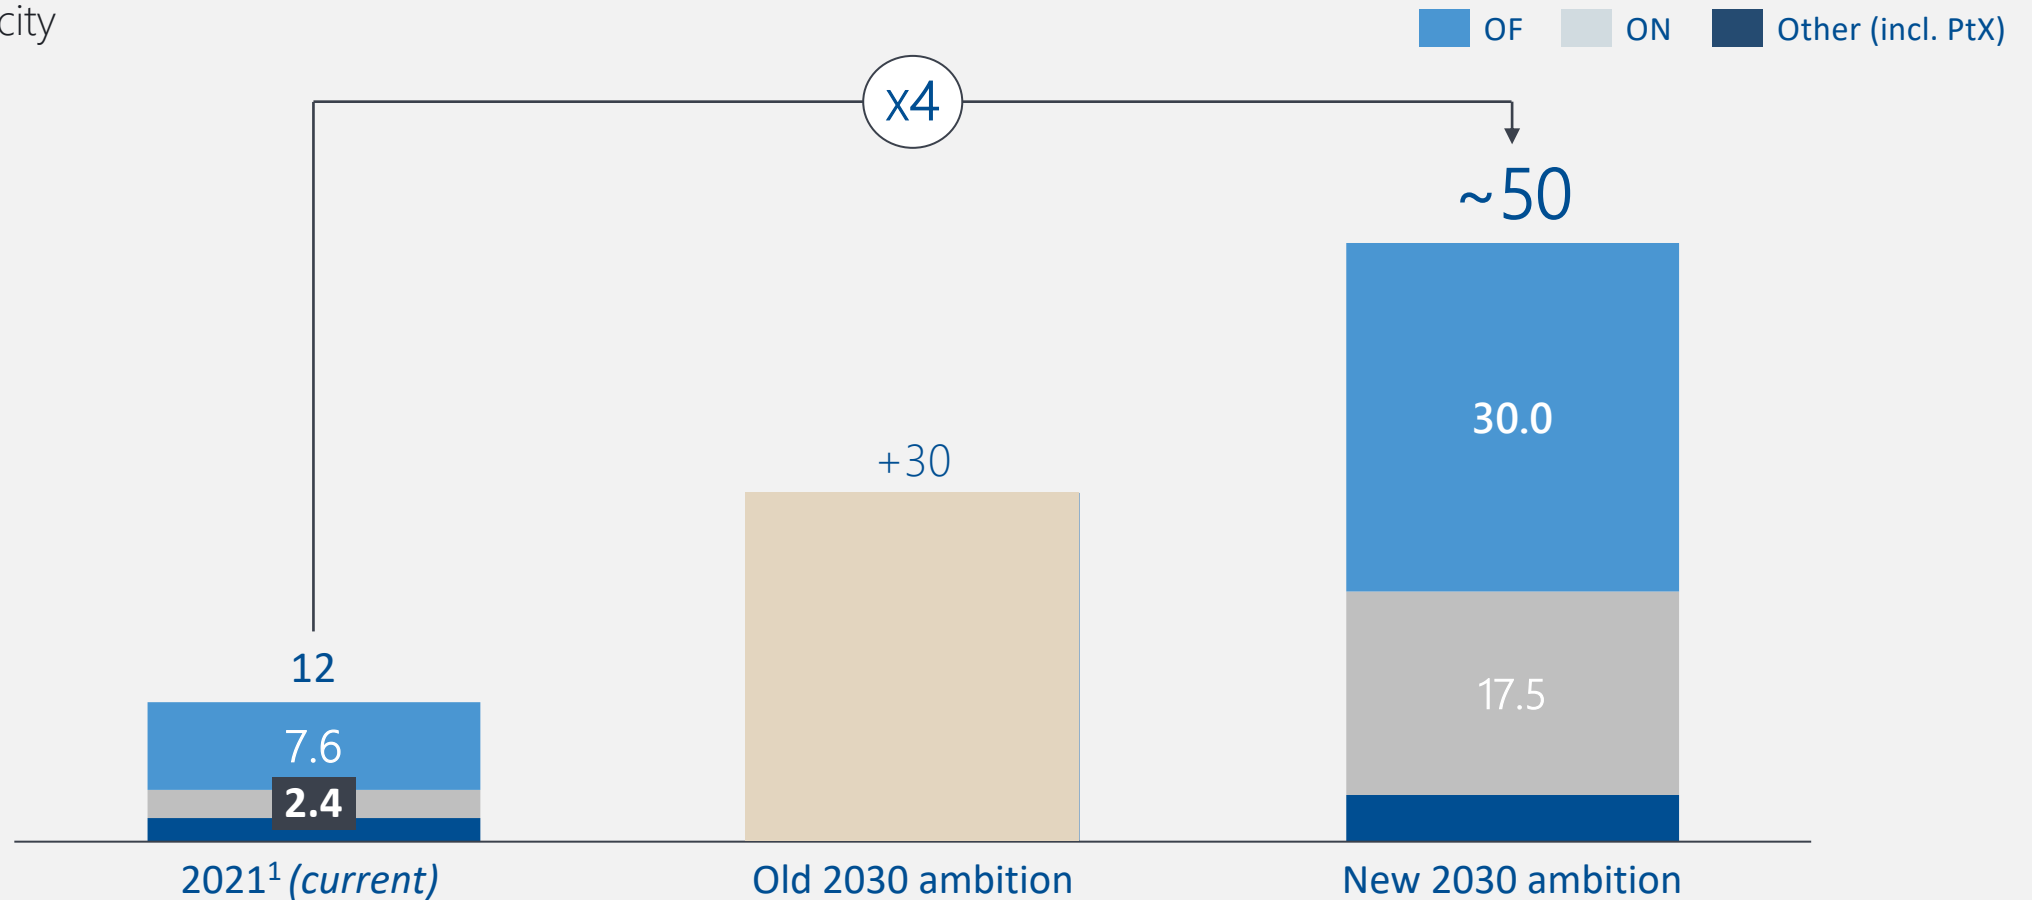

- Larger sites
- Larger turbines
- Cost reduction across all components
- Shorter installation cycles
- Lower operations and maintenance costs
- More competitive supply chain

1. Expected year of commissioning of Mid-Atlantic cluster

Ørsted aims to reach 50 GW installed capacity by 2030

Installed capacity (GW)

Ørsted Business Service – Direction

All main processes fully automated

Deliver operational excellence

Deliver all our services Globally

Certificate SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the interface software for the product **xSuite Business Solutions Cube 5.2** of the company **xSuite Group GmbH** has been certified for deployment on **SAP S/4HANA 1909** via the SAP integration scenario **ABAP Add-On Deployment for SAP S/4HANA**.

This certificate confirms the technical compliance of **xSuite Business Solutions Cube 5.2** with SAP certification procedures.

The certification test is documented in report no. **17860** and expires on **February 5, 2024**.

SAP Test System: SAP S/4HANA 1909

The certification is listed on the SAP Certified Solutions Directory: sap.com/csd.

Certified Functions:

- Assign Software Component and Namespace Package Add-On using SAP Add-On Assembly Kit
- Deploy using SAP Add-On Installation Tool (SAINT)
- Integrate with SAP S/4HANA 1909
- Technical Uninstallation Test
- SAP Solution Manager Ready functionality

Christoph Claus
Walldorf, February 5, 2021

SAP certification focuses on technical integration with SAP solutions. Vendor is responsible for the product itself, its error-free operation, and adherence to applicable laws.

Certificate SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the interface software for the product **xSuite Business Solutions Cube 5.2** of the company **xSuite Group GmbH** has been certified for deployment on **SAP S/4HANA Cloud, extended edition** via the SAP integration scenario for **ABAP Add-On Deployment**.

This certificate confirms the technical compliance of **xSuite Business Solutions Cube 5.2** with SAP certification procedures.

The certification test is documented in report no. **17859** and expires on **February 5, 2024**.

SAP Test System: SAP S/4HANA 1909

The certification is listed on the SAP Certified Solutions Directory: sap.com/csd.

Certified Functions:

- ABAP Add-On Deployment
- Security Code Scan using SAP CVA*
- Cloud Operational Requirements
- Cloud Technical Requirements
- Technical Uninstallation Test
- SAP Solution Manager Ready functionality

Christoph Claus
Walldorf, February 5, 2021

SAP certification focuses on technical integration with SAP solutions. Vendor is responsible for the product itself, its error-free operation, and adherence to applicable laws.
*CVA (SAP Software Vulnerability Assessment) is used for code vulnerability analysis. Use static analysis techniques to discover security vulnerabilities. Due to the nature of software security testing, the lack of discoverable flaws does not mean the software is 100% secure. Vendor is solely responsible for fixing and maintaining the solution.
