

A woman with dark hair, wearing a blue button-down shirt and large hoop earrings, is pointing her right index finger towards a large digital screen. The screen displays various data visualizations, including a bar chart at the top left, several circular gauges or progress indicators in the center, and lines of code or data on the right side. The overall scene is dimly lit, with the screen providing the primary light source.

SAP Business Technology Platform

One platform for Integration and Extensions

PUBLIC

REINVENT 
HOW BUSINESS RUN

Agenda

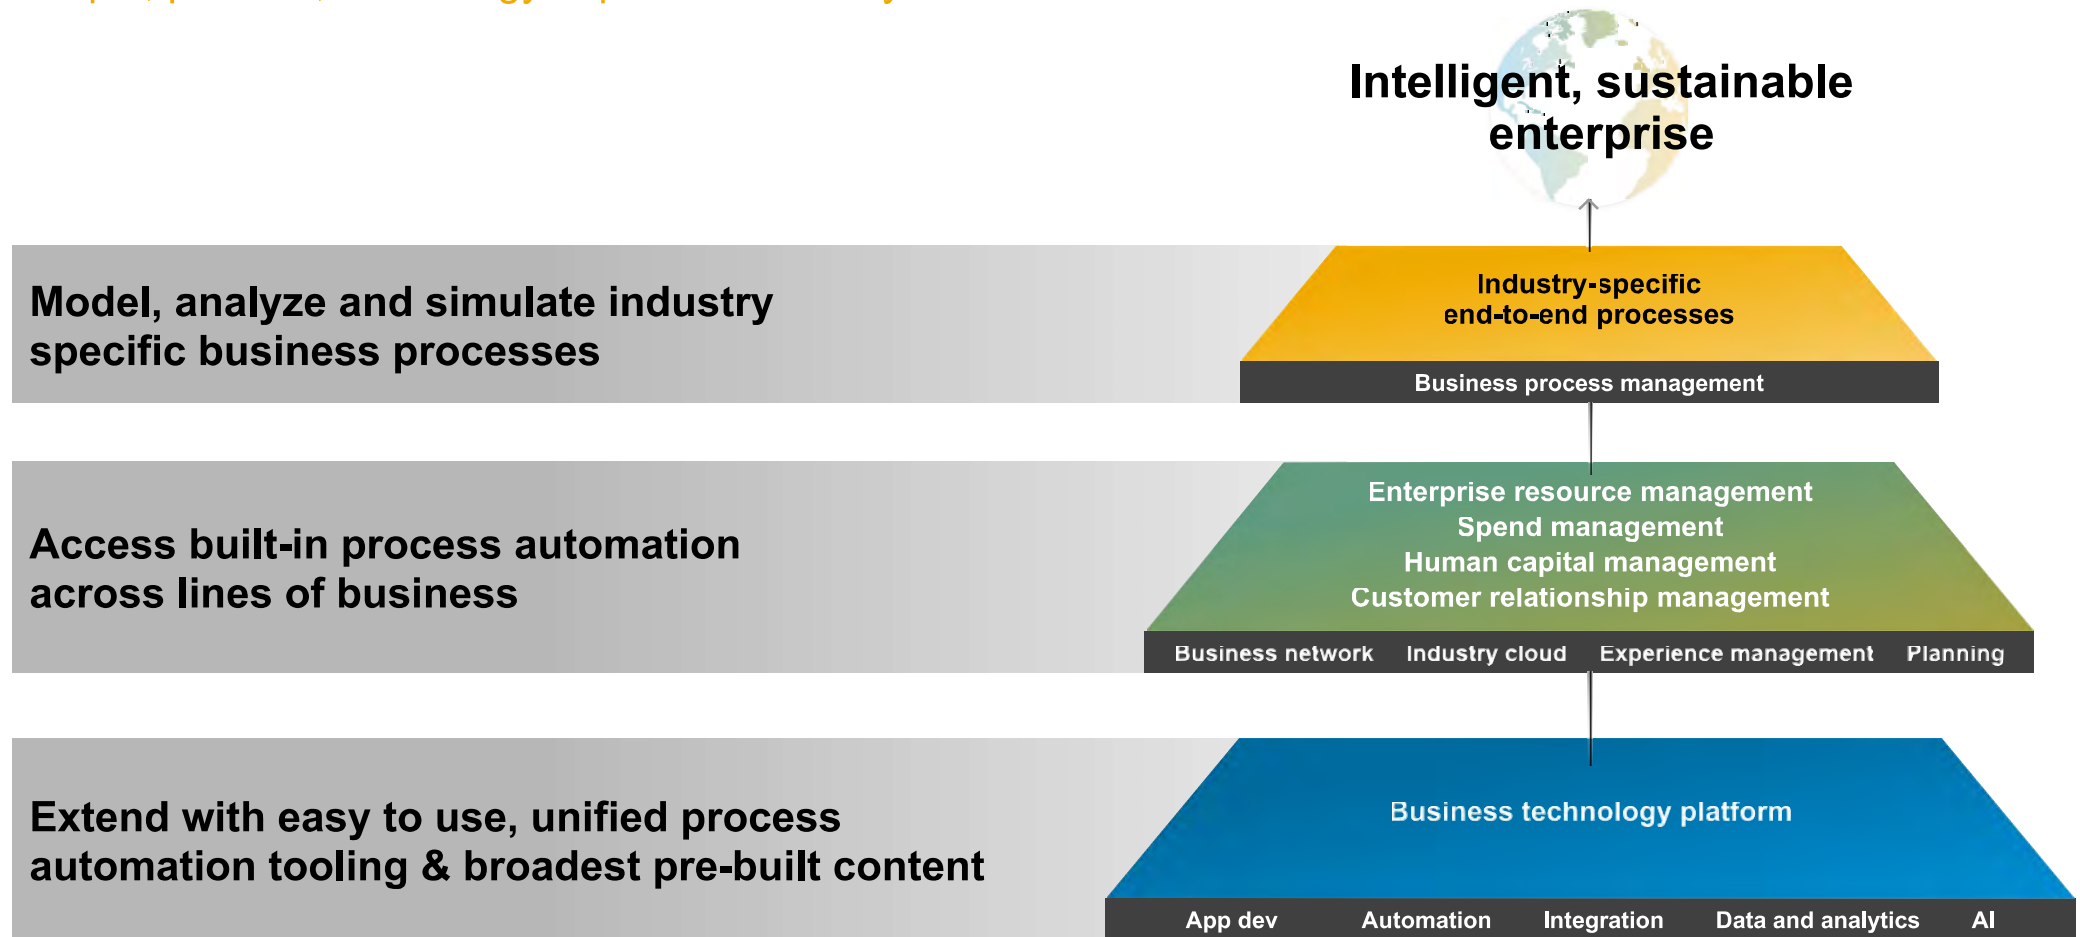

- SAP BTP as the foundation for the intelligent, sustainable enterprise
- SAP Integration Suite
- SAP Extension Suite

Agenda

- **SAP BTP as the foundation for the intelligent, sustainable enterprise**
- SAP Integration Suite
- SAP Extension Suite

SAP BTP is the foundation for the intelligent, sustainable enterprise

People, process, technology in perfect harmony

Value Drivers ▪ A modern business platform offers a holistic value proposition

Challenges

Complex, hybrid IT landscapes & increasing technical debt

Limited usability of large data volumes

Pressure through volatile markets & digital business models

Shortage of developers & limited time

Value drivers

Integrated Processes

Connected processes, data, and experiences across SAP and third-party solutions

Value from Data

Actionable insights & automation across all your enterprise data and processes

Extensibility & Ecosystem Access

Rapid configuration, plug & play extensions and business content from partners

Development Agility & Speed

Ease-of-Use and intuitive tooling to enable any developer and user to get the job done

BUSINESS TECHNOLOGY PLATFORM

SAP Integration & Extension Suites

Accelerate the journey to the cloud

Achieve faster time to value

SAP Integration Suite

- Accelerates enterprise-grade integration of hybrid, heterogeneous landscapes using out-of-the-box content to seamlessly integrate end-to-end processes, data, and apps.

SAP Extension Suite

- Extend LoB solutions or build new business apps quickly to fit your specific needs without disrupting your key business processes, while leveraging existing investments and expertise.

Optimized for the SAP landscape

Agenda

- **SAP BTP as the foundation for the intelligent, sustainable enterprise**
- SAP Integration Suite
- SAP Extension Suite

Agenda

- SAP BTP as the foundation for the intelligent, sustainable enterprise

S/4HANA® Cloud

The next generation digital core designed to help you run simple in a digital economy. It provides the industry-specific capabilities and cloud benefits that your business needs.

S/4HANA®

A future-ready ERP system with built-in intelligent technologies, including AI, machine learning, and advanced analytics which transforms business processes with intelligent automation.

Customer Experience

Bring together customer data, machine learning technology, and microservices to power real-time customer engagements across sales, service, marketing, and commerce.

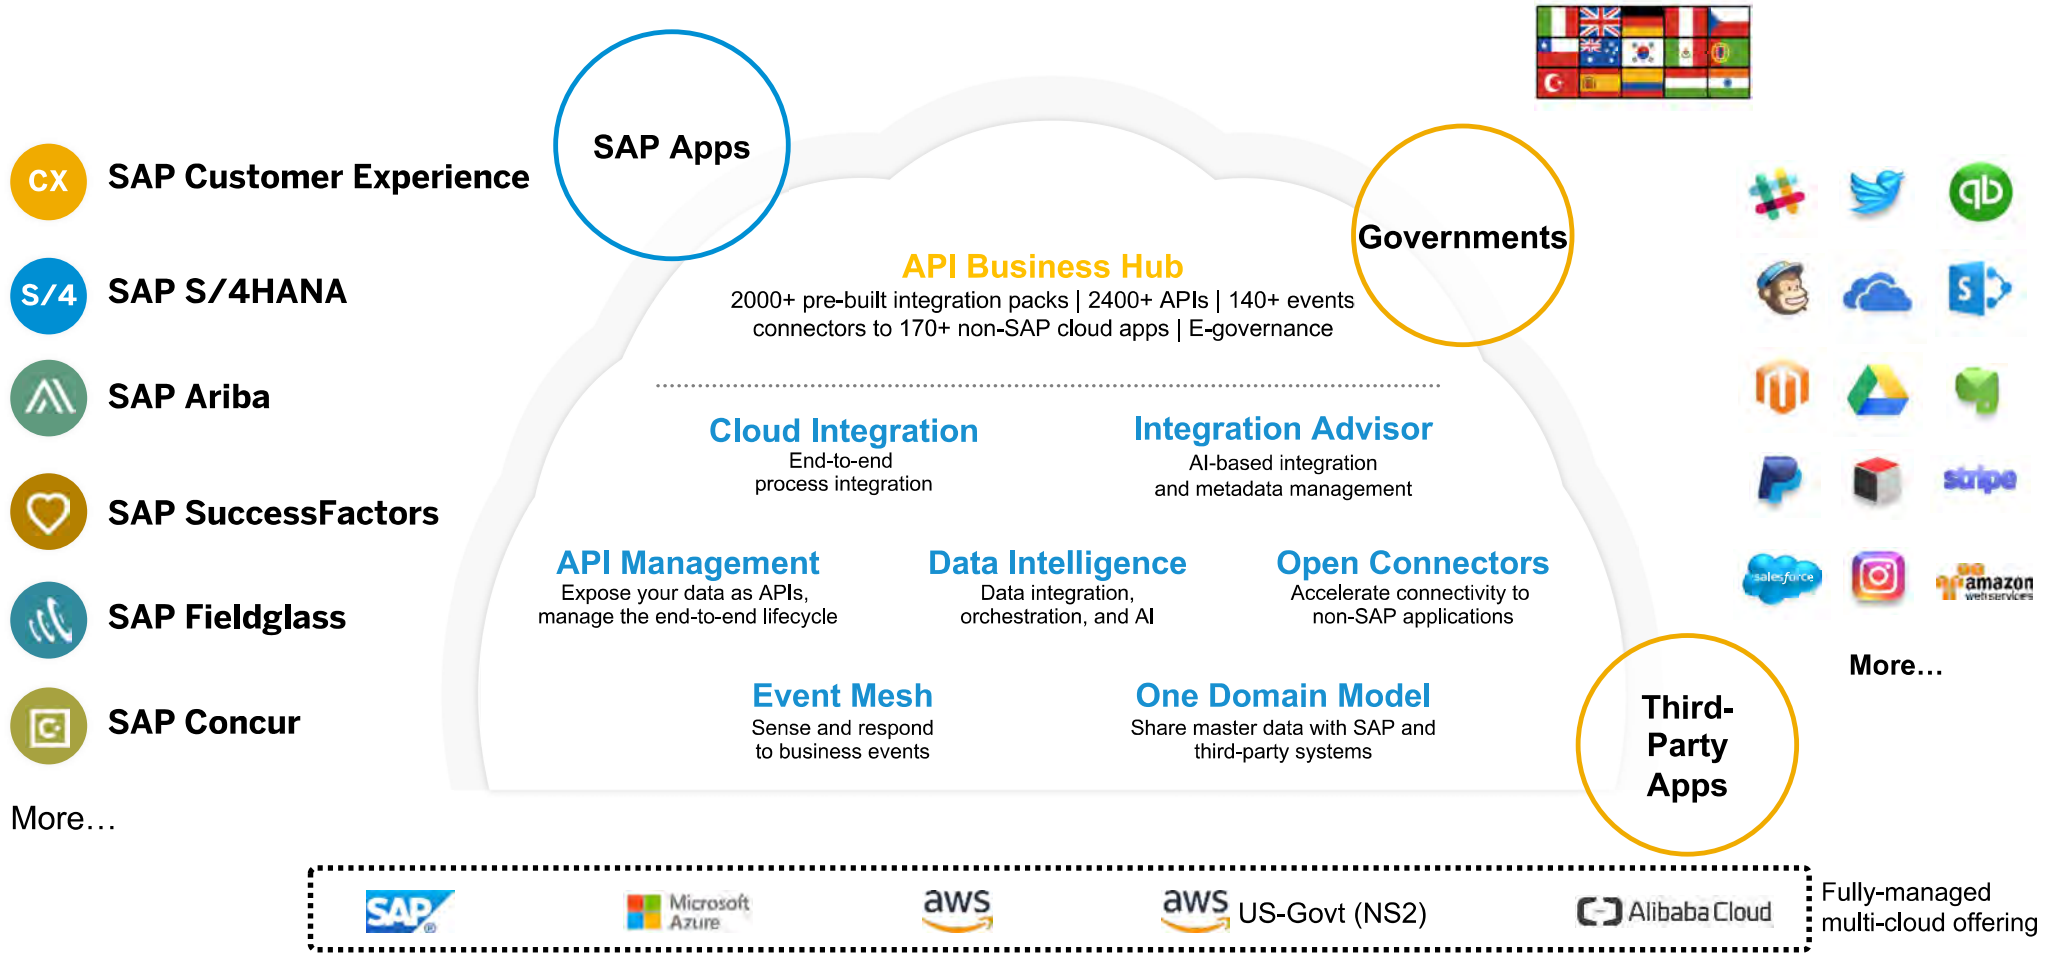

BTP

Accelerate business outcomes with integration, data to value, and extensibility.

SAP Integration Suite

SAP's hybrid integration platform for the intelligent enterprise

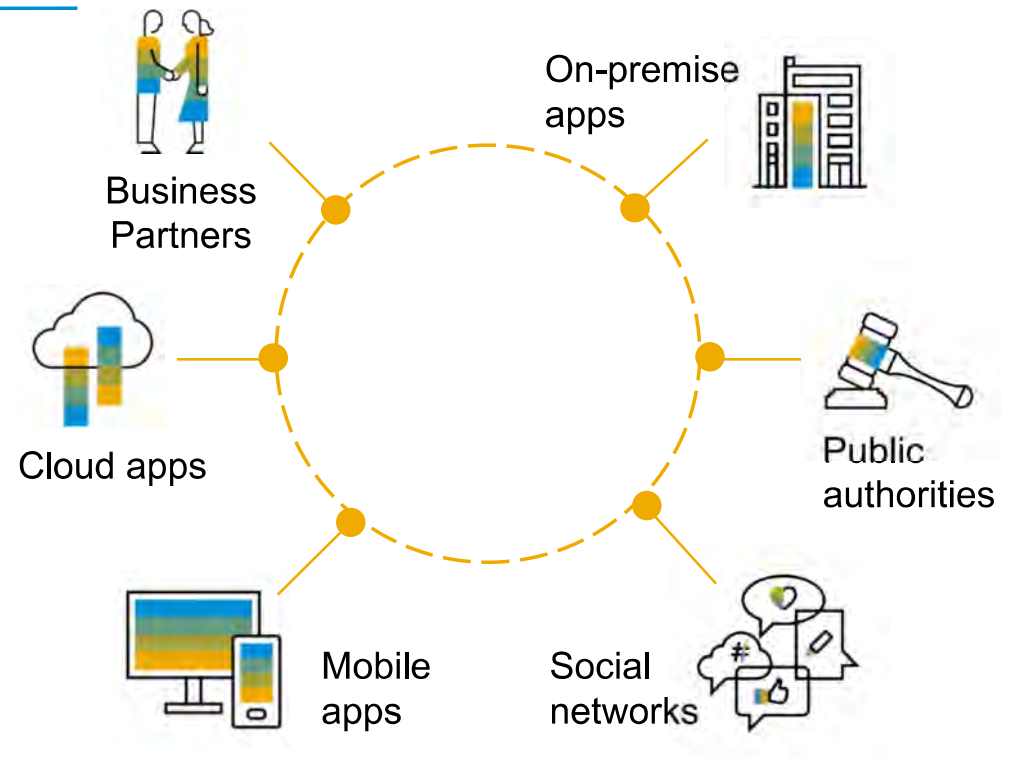

SAP Cloud Integration

Integrate Cloud Applications into your application landscape with ease

Strategic tool to connect cloud applications with other cloud and on-premises apps, both from SAP and third-party providers.

Key Capabilities

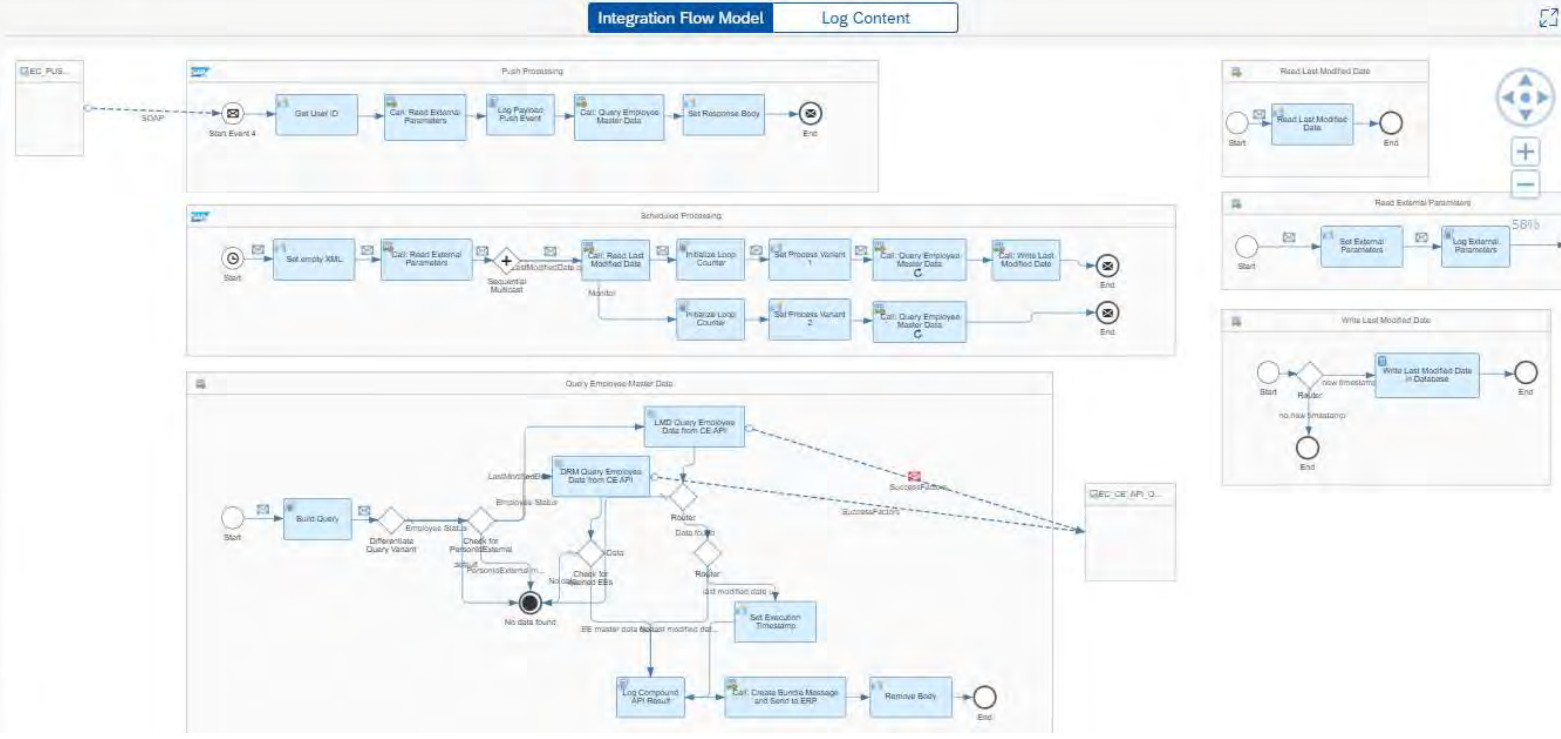

- Prepackaged content
- Web tool for modeling and monitoring
- Strong security focus
- Based on open standards
- ... with support of SAP Standards!

Simplify development of your application extensions

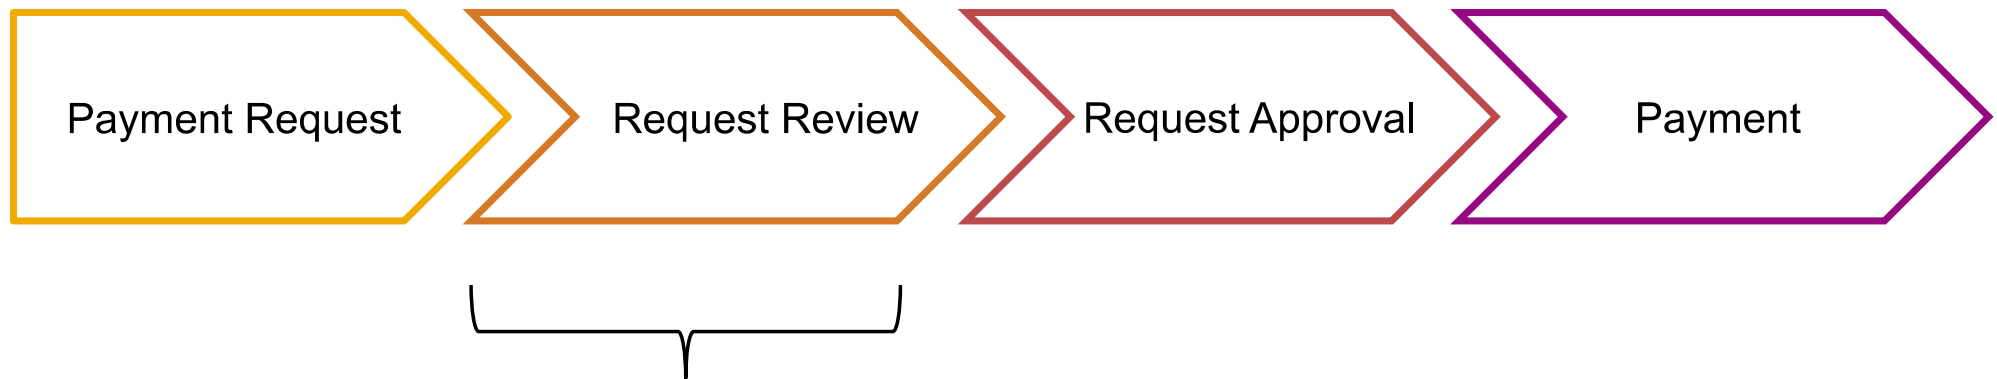

Introducing SAP Process Automation

Capabilities: citizen automation for line-of-business builders

- New **citizen automation user experience** (process builder, forms builder)
- All **advanced workflow management** capabilities available (rules, process visibility, process flexibility, AI)
- Embedded **RPA capabilities** to readily combine bot automations with workflows
- Content and **reusable artifacts** (such as bots, workflow components, process steps, actions)
- **Unified launchpad and task center** for citizen developer applications and automations

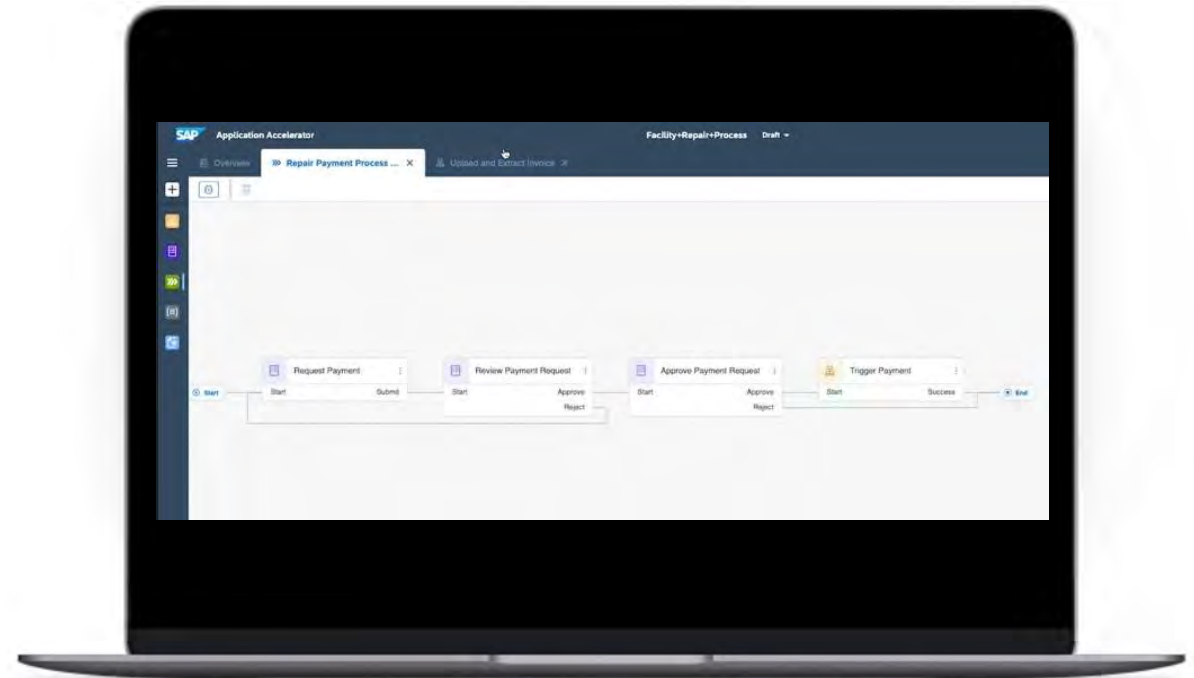

Improved Facility Repair Payment Process

Improvement: Enhance existing process step by adding a new automation capable to scan documents and check the amount

SAP Extension Suite: Business Services

Solve Business Problems in a Smart Way

Accelerating stewardship of the planet by transforming the Capital Expenditure (CAPEX) journey

Challenges

- CAPEX approval process that was built 10 to 15 years ago and was based primarily on e-mail
- Poor user experience, no tracking and reporting capabilities, and difficulty adapting to evolving workflows and business requirements
- Inability to implement planet sustainability key performance indicators (KPIs) in the approval process
- No mobile front end, making executive approvals cumbersome

Solutions

- Creation of a new CAPEX approval process using SAP Extension Suite, SAP HANA, and intelligent technologies from SAP
- Easy-to-use mobile front end using a set of SAP Fiori apps for tracking and analytics

Benefits

- One source of truth for all CAPEX requests to provide financial visibility and transparency
- Ability to measure and approve CAPEX projects that will achieve innovative and ambitious 2030 environmental goals, which include a 50% reduction in CO2 and 100% renewable electricity
- Real-time status and analytics reporting along with the ability to roll up views by department, business unit, region, and globally for overall KPI impact
- Overall reduction in maintenance and development cost

“The new app helps us drive our investments and lease requests in line with our company goals.”

Clément Artaud, Software Architecture Director, Danone S.A.

1,000

Employees will be more empowered in their roles by improving user experience and user satisfaction

100%

Of CAPEX approval process users will use the new streamlined process

SAP Business Technology Platform, SAP Extension Suite, SAP HANA, SAP Fiori, SAP Intelligent Technologies

Helping German Citizens Return Home

Challenge: Create a highly scalable and stable app for the German Ministry of Foreign Affairs to help German residents stranded abroad due to travel restrictions back to Germany...within a day.

Solution: “Rückholprogramm App” – developed and delivered by SAP within 24 hours - based on SAP Cloud Platform.

Result: ~170.000 residents returned home safely within two weeks

In Summary – The SAP Extension Suite:

1. Enables companies to deliver innovation without touching the core.
2. Delivers competitive differentiation, agile business process flexibility and enhanced digital experiences all optimised for SAP environments.
3. Provides out-of-the box accelerators to rapidly enable your developers and business users and increase productivity
4. The Extension Suite is recommended by SAP, optimised for SAP and managed by SAP
5. Includes solutions requiring No Code, Low Code and Pro Code with out of the box connectivity across these environments
6. Fully complements the SAP Integration Suite.

SAP was recently identified as a leader in the MXDP Gartner Quadrant.
