Established 2006

NEOMORE

OUR CUSTOMERS

## OBJECTIVE

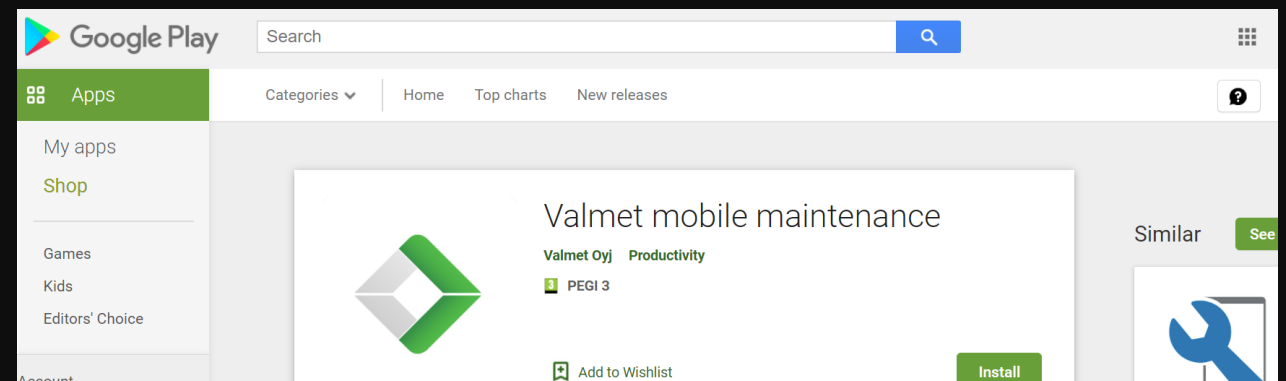

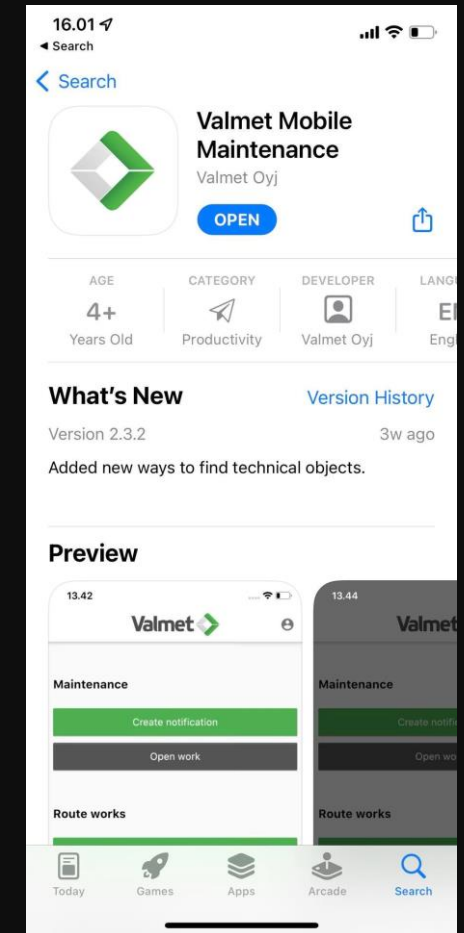

- Mobile solution for daily plant maintenance activities
- Customers worldwide – each with own SAP system
- Low-cost implementation and maintainability
- Wide compatibility – end user devices
- Wide compatibility – SAP systems

## SOLUTION

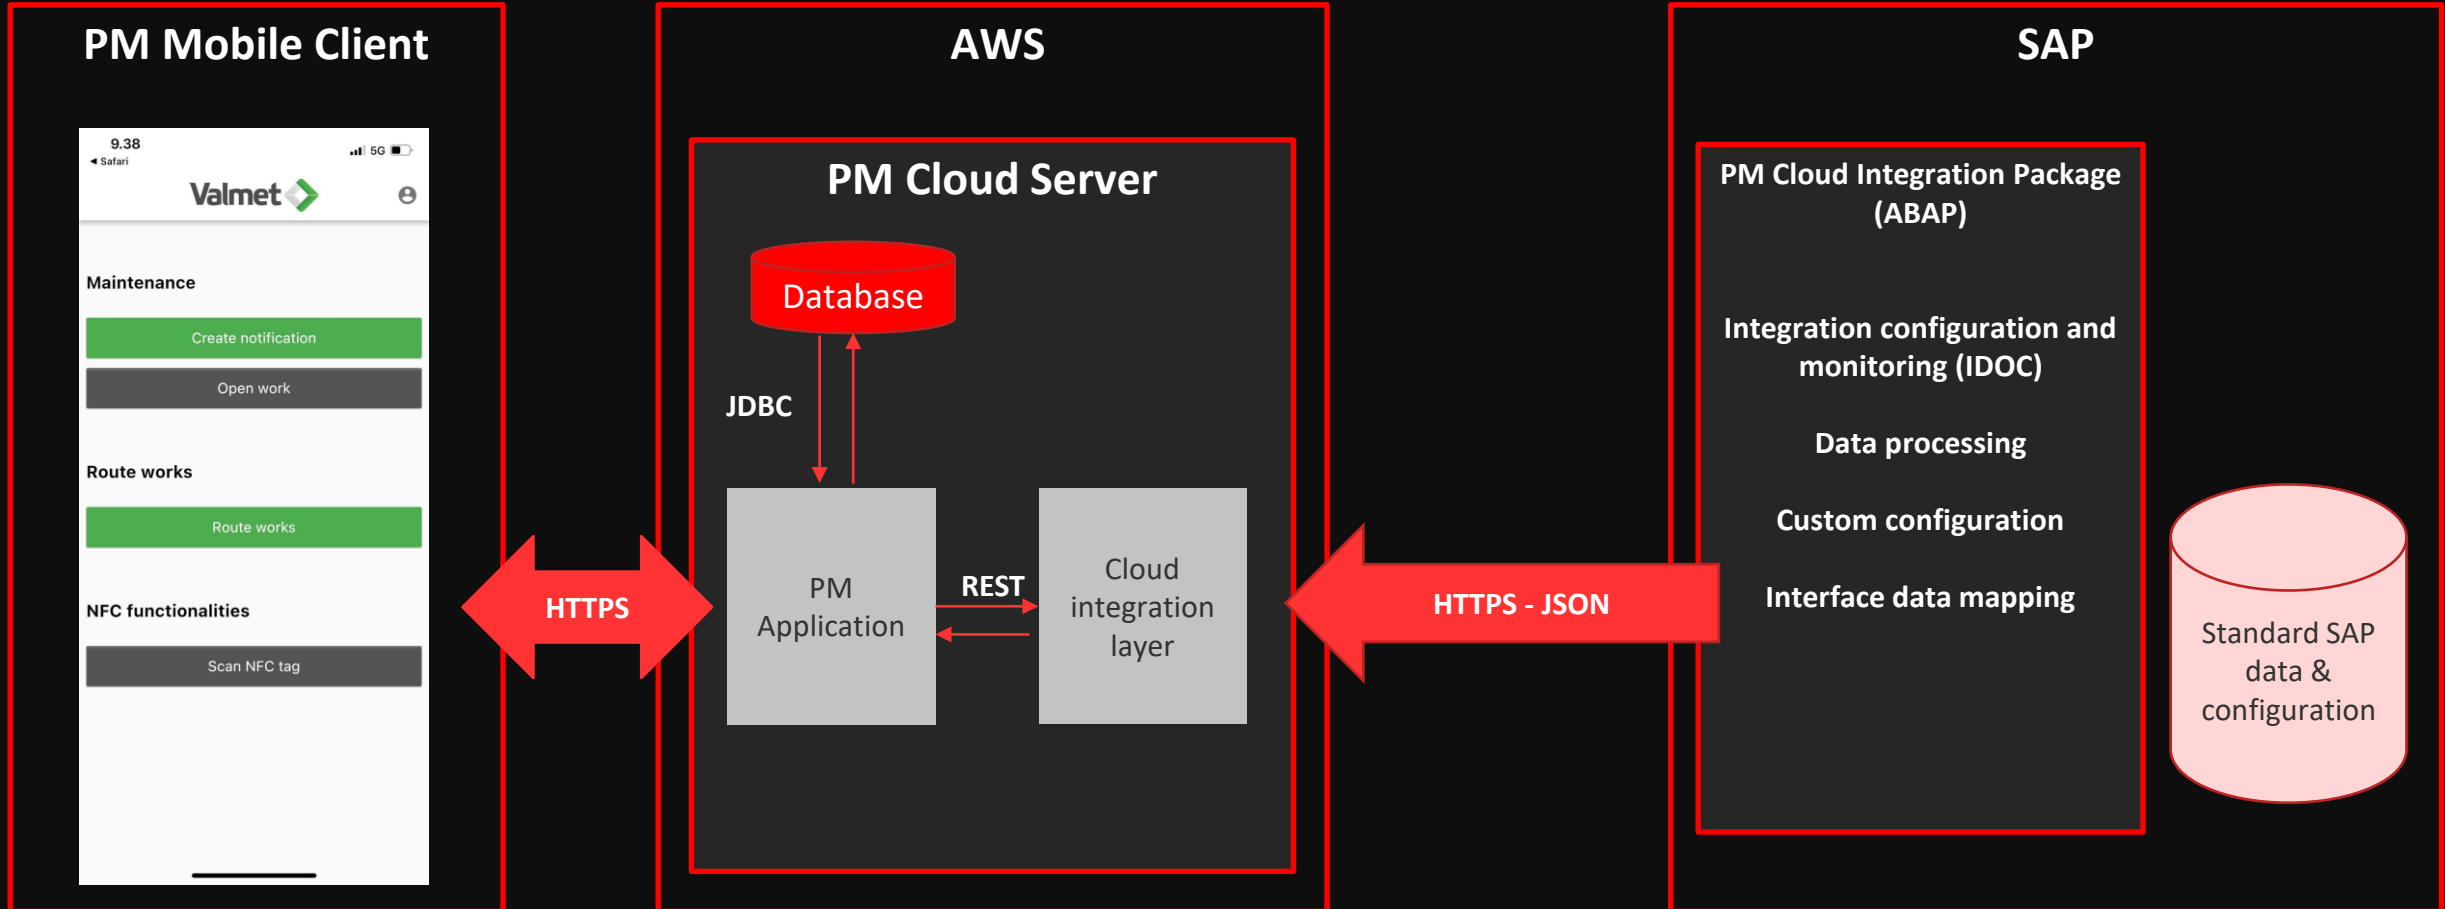

- **Mobile solution for daily plant maintenance activities**
  - Malfunction notification creation
  - Corrective & preventive work order processing
  - Inspection routes
  - Technical object recognition: NFC tags and QR code scanning
- **Customers worldwide – each with own SAP system**
  - Implement integration package to SAP for easy installation
  - Support PM/CS modules, no industry restrictions
  - Parametrization to support customer SAP configuration
  - Existing custom development impact evaluated separately

## SOLUTION

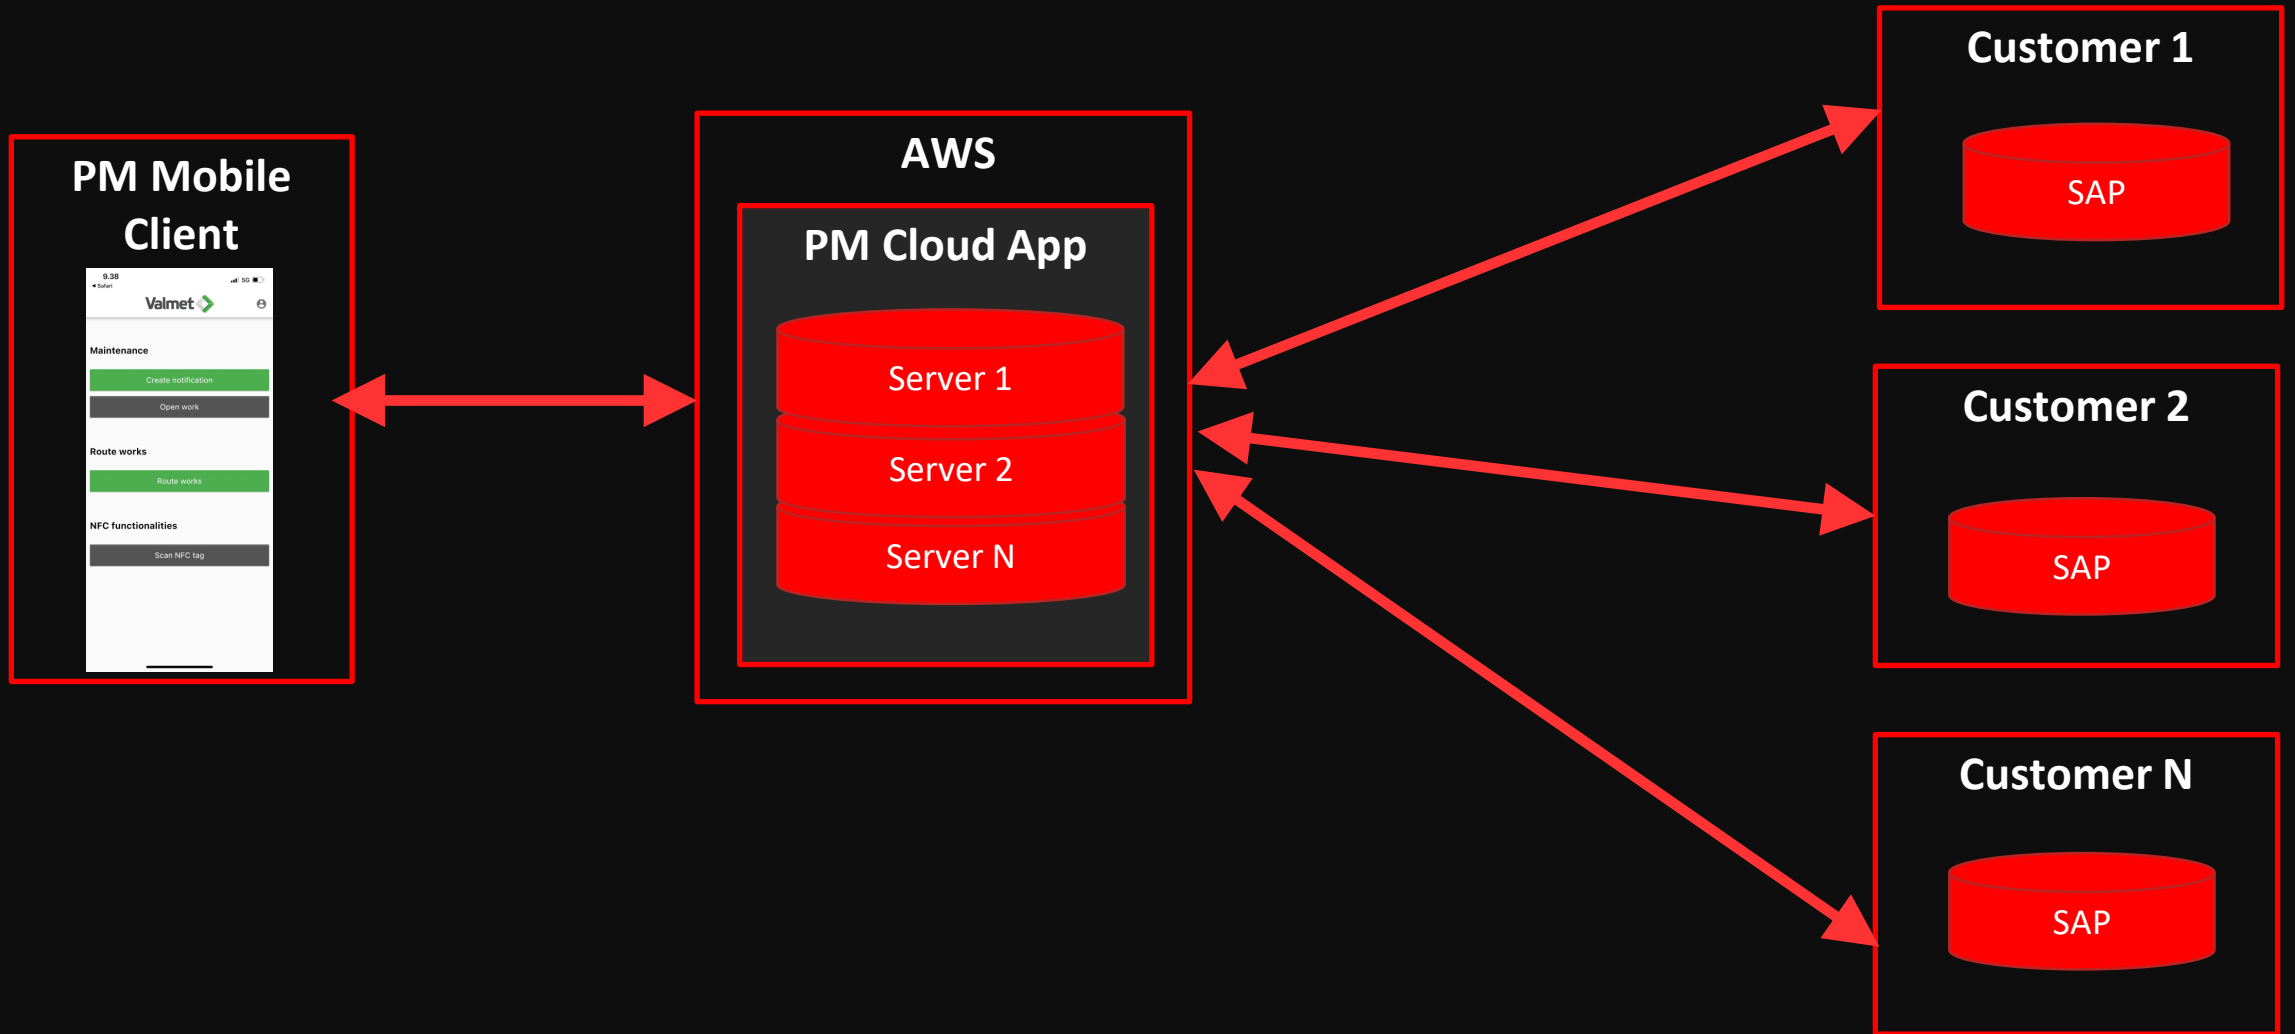

- **Low-cost implementation and maintainability**
  - Minimum customer-specific changes
  - Activate device features per customer
- **Wide compatibility – end user devices**
  - End-user application running on IOs and Android
  - Industry standard delivery: Apple App Store & Google Play
  - Use existing authentication provider (Azure AD, etc.) or standalone
- **Wide compatibility – SAP systems**
  - Minimal technical requirements for SAP system and components

TECHNICAL ARCHITECTURE – SINGLE CUSTOMER

TECHNICAL ARCHITECTURE – MULTIPLE CUSTOMERS
