Further Information

Trends and Challenges

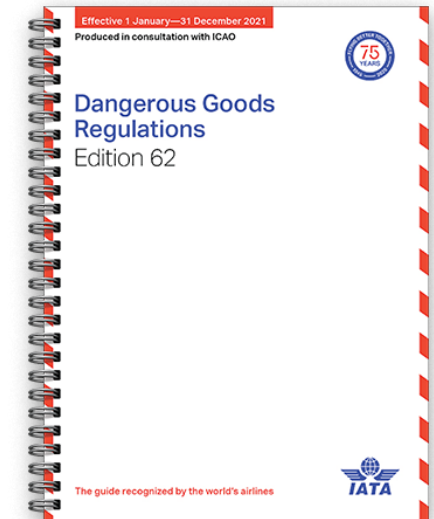

Producer Responsibility Starts with Product Compliance

SCIP

**Lieferkettensorgfaltspflichtengesetz
(Supply Chain Transparency Law)**

Product Compliance

Manage Challenges Through Digitalization

COMPLIANCE REQUIREMENTS

Embed compliance in product development
Stay up-to-date with regulatory content

COMPLEX SUPPLY CHAINS

Streamline communication

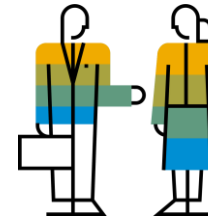

INDIVIDUALIZED PRODUCTS

Automate compliance assessment

RESOURCE CONSTRAINTS

Automate compliance processes
Implement controls throughout the lifecycle

STAKEHOLDER DEMANDS

Make information accessible
Automate document creation and distribution

Solution Overview **and Strategy**

SAP S/4HANA for Product Compliance

Manage Global Product Safety and Compliance Throughout the Product Lifecycle

Product marketability and chemical compliance

Ensure compliance of products and chemicals to secure the right to market, sell, and ship products

Safety data sheet and label management

Manage safety data sheet and label requirements to ensure compliance and accelerate product introduction

Dangerous goods management

Provide safe and compliant transportation of hazardous materials to avoid delivery delays and protect brand value

SAP S/4HANA for Product Compliance

Today's Cloud and On-Premise Options

Public Cloud

SAP S/4HANA Cloud for product compliance

Private Cloud

SAP S/4HANA Cloud for product compliance, private edition

On Premise

SAP S/4HANA for product compliance

What is EHS and Product Compliance?

Environment, Health, and Safety

Incident Management

Health and Safety Management

Environment Management

Management of Change

Maintenance Safety and Permit to Work

Product Compliance

Product Marketability and Chemical Compliance

Dangerous Goods Management

Safety Data Sheet and Label Management

SAP S/4HANA for Product Compliance

Strategy

Lab preview

Complete **renewal** of the product compliance solution in SAP S/4HANA

Streamline processes with **automated** compliance assessment

Stay up-to-date with **embedded regulatory content**

Mitigate risk with compliance controls **integrated into end-to-end business processes**

Increase efficiency with SAP Fiori based **user guidance**

Make compliance information easily accessible with **SAP HANA-based analytics**

Choose your deployment favorite with the solution being available in the on-premise and private and public cloud editions of SAP S/4HANA

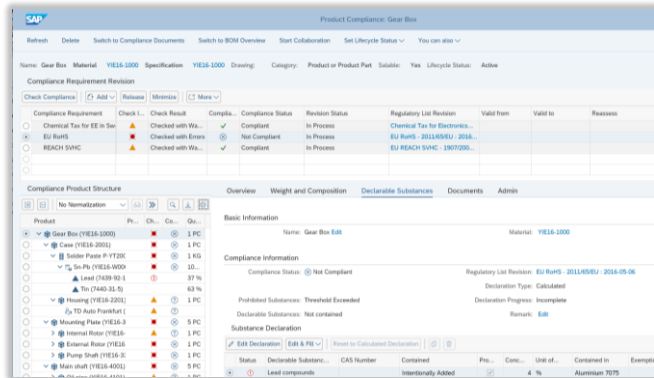

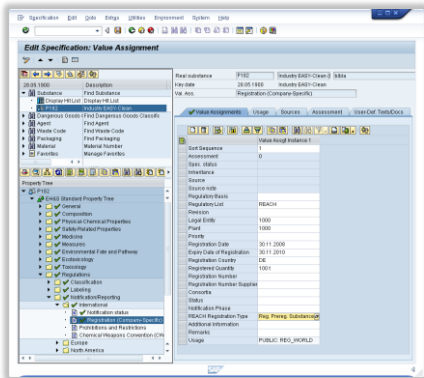

SAP S/4HANA for Product Compliance

Existing and New Capabilities in the On-Premise and the Private Cloud Editions

Lab preview

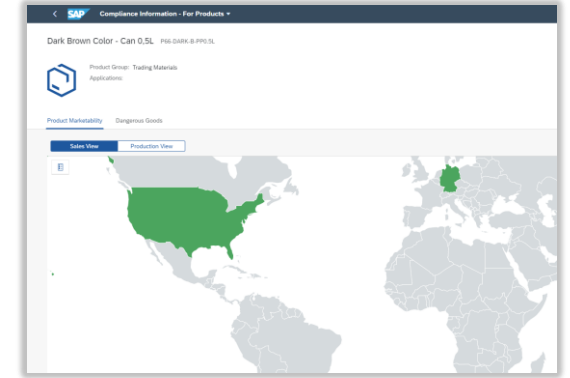

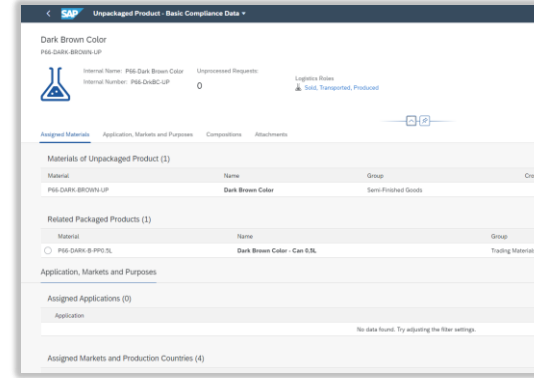

Existing (classic) capabilities

- All features of the SAP ERP based product safety and product compliance solutions
- SAP GUI and Web Dynpro transactions
- Specification database, workbench approach
- Full scope, no functional enhancements

New Capabilities

- New process model, SAP Fiori apps
- New data model, CDS-based
- New integration into product master, sales, delivery, procurement, transportation
- No full scope yet, innovation roadmap

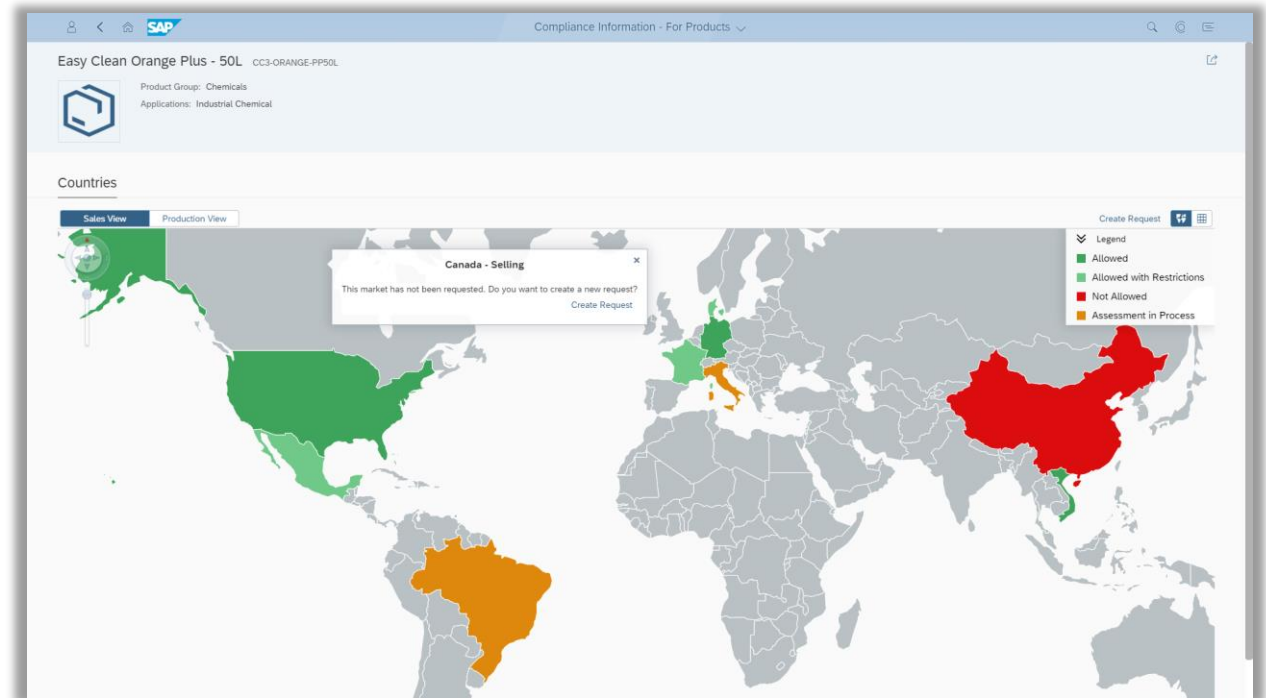

Today customers have the choice. Once new capabilities support full scope and 3 – 4 years of additional transition period, existing capabilities will no longer be available.

Product Marketability and Chemical Compliance

Overview

Protect marketability with embedded product and chemical compliance

- Central management of compliance data and requirements
- Automatic triggering of compliance assessments
- Embedded regulatory content
- Automated compliance assessment
- Substance volume tracking
- Integrated marketability checks
- Compliance monitoring and analytics

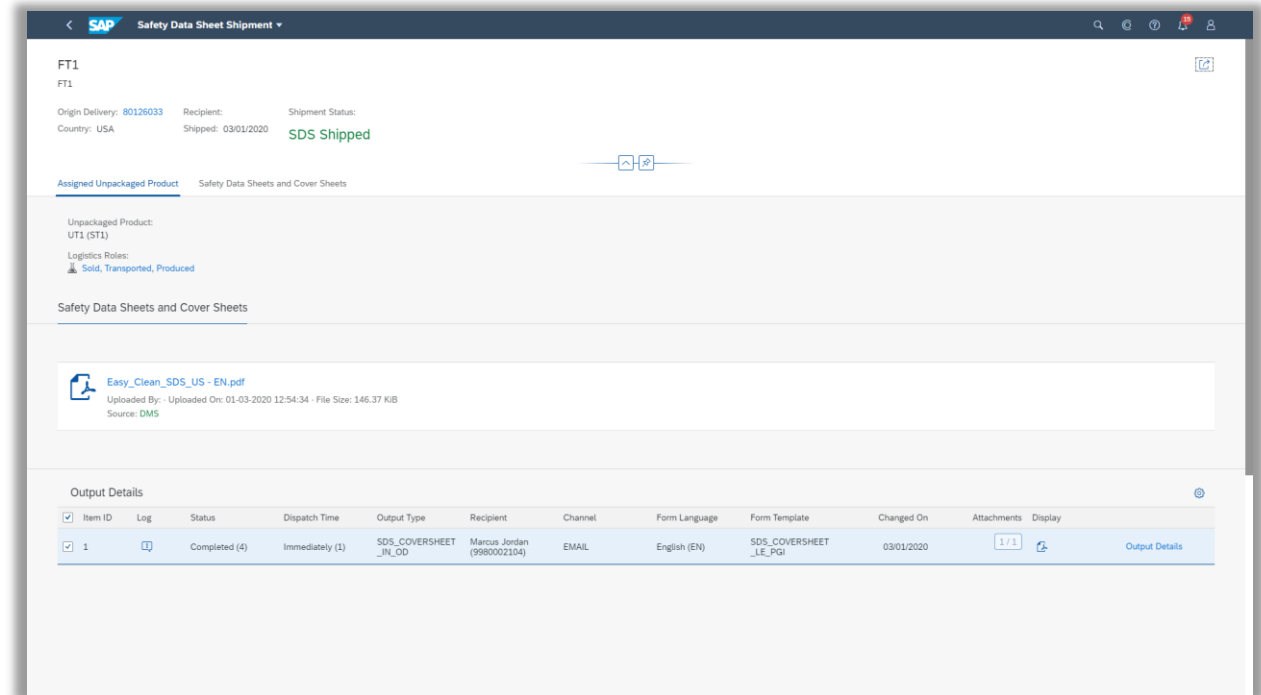

Marketability status overview

Safety Data Sheet and Label Management

Overview

Protect revenue and brand with globally compliant safety data sheets

- Central management of safety data sheet requirements
- Safety data sheet management per product and country including versioning
- Integrated safety data sheet checks
- Automatic distribution of safety data sheets natively integrated in delivery processing
- Automatic redistribution of updated versions fulfilling legal requirements
- Monitoring of safety data sheet availability and shipments

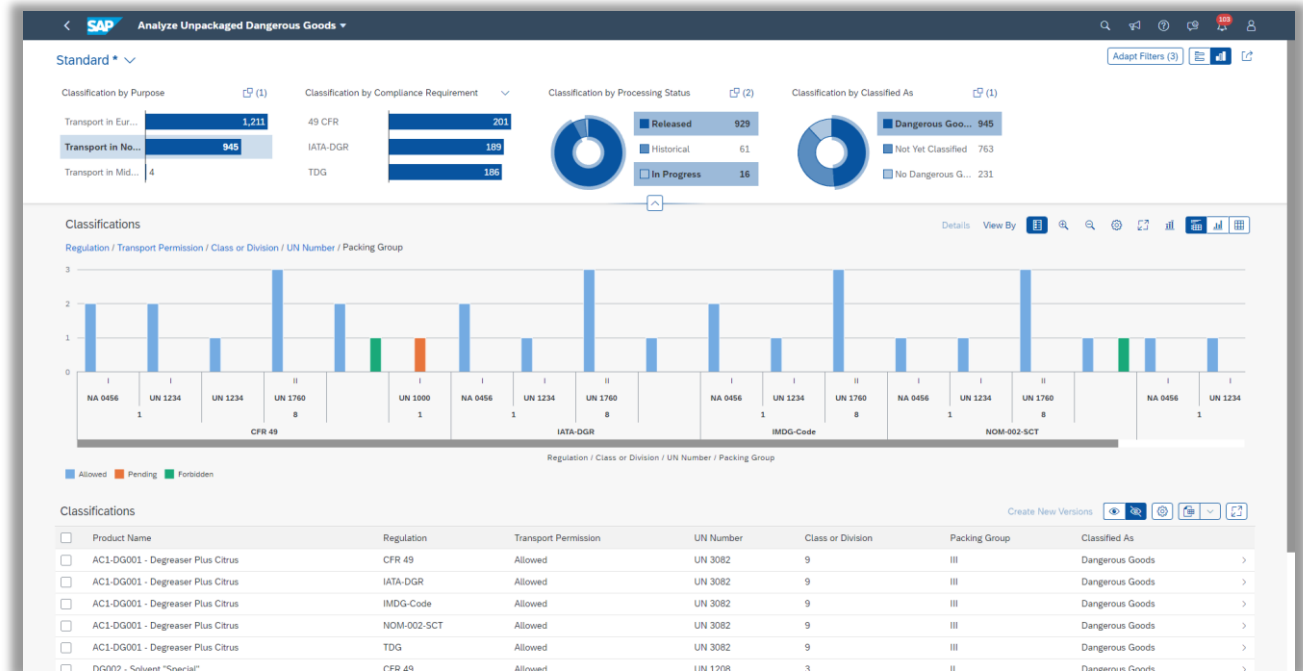

Monitoring of safety data sheet shipment

Dangerous Goods Management Overview

Ensure safe and compliant transportation of dangerous goods

- Central management of dangerous goods requirements
- Dangerous goods classification for unpackaged and packaged products
- Embedded regulatory content
- Integrated dangerous goods checks
- Output of dangerous goods information on logistic documents
- Analytics

Analysis of unpackaged dangerous goods

Embedded Regulatory Content in SAP S/4HANA for Product Compliance

Summer 2022

Ensure compliance, reduce time to market and extend marketability of your products with embedded regulatory content

- 324 356 listed substances
- 9 235 regulatory phrases (incl. translations)
- 796 regulatory graphics
- 207 compliance requirements for product marketability, 141 with embedded content
- 92 compliance requirements for occupational exposure limits
- 102 compliance requirement for safety data sheet management
- 14 compliance requirements for dangerous goods
- Updated with every release

SAP S/4HANA for Product Compliance

Business process integration

Delivery and transportation

- Integrated marketability, SDS, and dangerous goods checks
- Output of dangerous goods data
- Automated safety data sheet distribution
- Integrated substance volume tracking
- Trigger labeling of packaged products

Sales and customer support

- Integrated marketability, SDS, and dangerous goods checks
- Output of dangerous goods data
- Integrated substance volume tracking

Manufacturing

- Integrated substance volume tracking
- Trigger labeling for produced products

Product development and definition

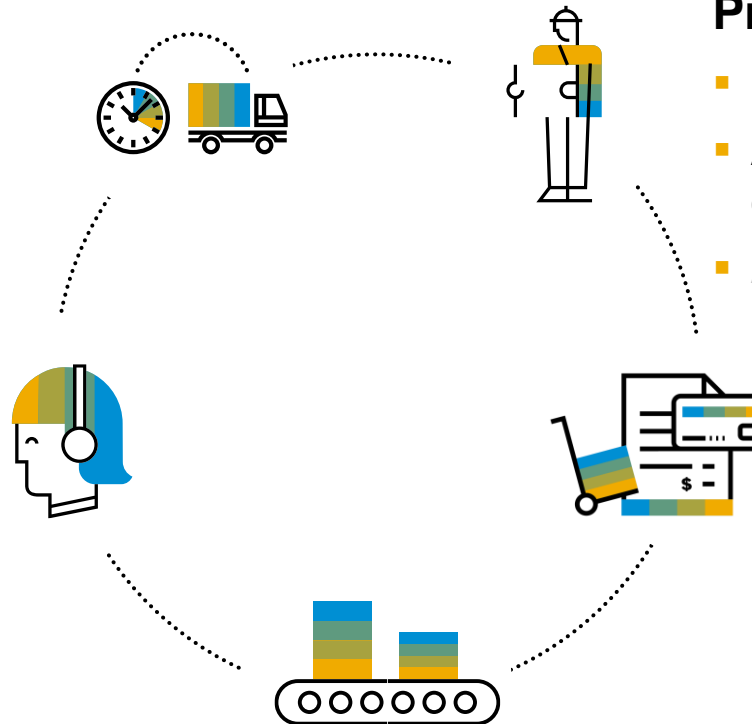

- Integrated product marketability checks
- Activation of embedded product compliance in product master
- Automated bill-of-material alignment

Procurement

- Integrated marketability checks
- Integrated dangerous goods checks
- Integrated substance volume tracking
- Stock transport integration

Warehouse

- Integrated product marketability and dangerous goods checks
- Integrated substance volume tracking
- Trigger labeling for received products

Legend:

Available integration Planned integration

SAP S/4HANA for Product Compliance

Summary and Benefits

Increase revenue and accelerate product introduction
with real-time decision support and streamlined product development
through embedded product compliance

Reduce compliance costs
by streamlining compliance processes with
user experience, analytics, automation,
and embedded content

Protect the brand and mitigate risks
with full business process integration, up-to-
date information, and compliance controls
throughout the product lifecycle

Ensure on-time delivery
with up-to-date compliance documents and
safe transportation of dangerous goods

Increase visibility into compliance
with analytics, enabling quick responses to
compliance inquiries

Solution Demo

Product Marketability and Chemical Compliance for Process Industries

Marketability Check and Assessment – Demo

Demo Flow

1. Sales employee wants to sell product in the US, but system blocks sales order due to missing product marketability assessment.

2. Product Steward assesses marketability and releases product for sales in the US.

3. Sales employee checks that sales order is no longer blocked.
