

SAP BTP Fiori Workshop

A 1-day workshop to **gain knowledge and expertise** in SAP Fiori App development.

Who is it for?

We want to empower businesses with the User Experience know-how and technical understanding to thrive. This event is **open to all business functions, technology experts, and business leaders** who are interested in the practical application of SAP Fiori and key SAP technologies.

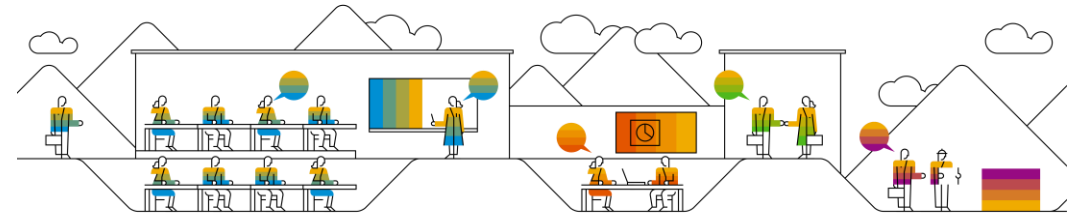

Why attend?

Learn from product experts in this interactive, hands-on workshop how to build your own SAP Fiori App. With in-depth topic overviews and practical exercises, you will **gain knowledge and valuable experience in BTP and SAP Fiori app development**. Expand your network and gather insights from your peers working in other companies.

What is the format?

- On-site event
- 1 days
- All workshop **presentations and hands-on materials are provided via SAP Discovery Center**

SAP BTP Fiori Workshop

In this **hands-on workshop**, based on exercises you'll step into **development of your own SAP Fiori app**.

Also, we'll show **how to extend standard SAP Fiori apps**.

SAP Business Application Studio will be used to **create and enhance applications**, which will be **deployed through SAP Business Technology Platform** and provisioned to the users.

Day 1

- SAP Business Technology Platform overview (30 min presentation)
- SAP Build WorkZone / Launchpad service (30 min presentation)
- SAP Fiori user experience, SAPUI5, and SAP Fiori elements (30 min presentation)
- Add an existing app into Fiori launchpad and run (20 min hands-on exercise)
- Extend a standard SAP app as a key user (20 min hands-on exercise)
- Low-Code and Pro-Code development with SAP Business Application Studio (20 min presentation)
- Mission to create the “hello Stockholm” app (90 min hands-on exercise)
- Create a custom SAP Fiori app (60 min hands-on exercise)
